## **DETAILED ACTION**

### ***Election/Restrictions***

1. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions, which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claims 1-12 and 19-18, drawn to a glyphosate tolerant transgenic bentgrass plant having event ASR-368 and method of using, classified in class 800, subclass 300, for example.

Group II, claims 13-16, drawn to a DNA detection kit, classified in class 536, subclass 24.3, for example.

Group III, claims 16 and 17, drawn to a method of detecting the presence of DNA, classified in class 435, subclass 6, for example.

Group IV, claim 20, drawn to a glyphosate tolerant bentgrass plant wherein the trait is genetically lined to a complement of a marker polynucleic acid, classified in class 800, subclass 300, for example.

2. The inventions listed as Groups I-IV do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: The broadest inventive concept of the claims is glyphosate tolerant bentgrass. The invention of Group IV does not require the event ASR-368, nor does the product used in the method of Group III; hence the claims as a whole lack the same corresponding special technical feature and hence do not relate to a single general inventive concept.

3. Applicant is advised that the reply to this requirement to be complete within one month (not less than 30 days) must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Art Unit: 1638

4. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
